The purpose of this document is to provide information regarding the Institutional Review Board (IRB) and its role in protecting the rights and welfare of human subjects of research. The IRB is a committee that reviews and approves research projects involving human subjects. Its primary concern is the protection of the rights and welfare of the subjects. The IRB is composed of members who are not directly involved in the research and who represent a cross-section of the community. The IRB's responsibilities include reviewing research proposals, conducting ongoing monitoring of research, and providing recommendations to the sponsor of the research. The IRB's decisions are based on the ethical principles of respect for persons, beneficence, and justice. The IRB's role is to ensure that research is conducted in a manner that is consistent with these principles and that the rights and welfare of the subjects are protected.
